Lancaster Farming

VOL. 11 NO. 8 | Lancaster Farming, Saturday, January 18, 1969 | $2.00 Per Year

THAT GOOSE IS RATHER LARGE and even if the tags pinned on little Elaine and Eddie Engle tell everyone to "Smile," they are not sure they want to do it with that big fellow just inside the cage. The children, age four and two, along with their parents Mr. and Mrs. Robert Engle, Ronks R1, were among the many visitors to the 53rd Pennsylvania State Farm Show in Harrisburg Thursday. L. F. Photo

A HUG FOR THE RESERVE CHAMPION. Seven-year-old Christian Herr, son of Mr. and Mrs. Robert Herr, Narvon R2, holds the soft bundle of wool that was reserve grand champion of the Dorset Sheep Show in Harrisburg this week for the Herr family. The champ was also a member of the second place three Ewe lambs owned by exhibitor. L. F. Photo

Local Youth Start Well But End Disappointingly In Baby Beef Competition

What started as a wild display of Lancaster County superiority in the State 4-H Baby Beef Show Thursday morning, ended that afternoon in a manner that might conservatively be called a little disappointing

To start things off, Larry Herr, 840 Penn Grant Road, captured the Shorthorn breed championship giving the local club one steer in the championship circle when it came time to select the grand champion of the show

Then came the Herefords David Enck, Holtwood R1, started the contest with a first place win in the Light Weight class The next class — Medium Weight — was again topped by a Lancaster entry shown by Marlin Bollinger, Denver R2. Then came the Light-Heavy Weight class where the first six places were filled by Lancaster County 4-Hers When Judge Harlan Ritchie, Michigan State University, finished, Nancy Herr, also 840 Penn Grant Road, was first leaving only the Heavy Weight class of Herefords to be topped by Helen Lehman from York County However, as the event

(Continued on Page 8)

County Stars In Tobacco At Farm Show

Lancaster County tobacco producers walked off with all championships in filler and wrapper classes in judging at the 53rd Pennsylvania Farm Show

Roy M Rohrer, of Strasburg, R 1, won the grand championship in filler classes, and Ira C Shank, of Pequea, R 1, was winner in wrapper classes

Steven Stehman, of Conestoga, R 2, showed the champion wrapper and Donald Thomas, of Millersville, R 1, the champion filler in the 4-H division

In vocational competition, Gary R. Neff, of Millersville, R 1, exhibited the champion wrapper and Rachel W. Martin, of New Holland, R 1, the champion filler

Class 76 A. Wrapper B's

1. Ira C. Shank, Pequea, RD 1; 2 Susan R. Shank, Pequea, RD 1, 3 Harold H Greider, Millersville, R D. 1, 4 Jay Hostetter, Manheim, R.D 1; 5 Tom Bollinger, Lititz, R D 4, 6

(Continued on Page 10)

4-H Lamb Club Members Do Well At Farm Show

Lancaster County 4-H members shared the majority of breed championships in market lamb classes at the 53rd Pennsylvania Farm Show, winning top awards in Cheviot, Dorset, Hampshire, Southdown, and Shropshire classes

The grand champion individual lamb was exhibited by Ted Bushong, of Columbia, RD 2, Lancaster County, and reserve champion by William Bland, of 435 E Irvin Ave, State College, Centre County The Bushong

(Continued on Page 9)

Countians Win In Hay Show

Harrisburg — Mahlon H Shenk, Holtwood R2, placed first in two classes in Hay Judging Contest here at the Farm Show this week but the show championships went to Gordon Isenber, Huntingdon County and Jay McCarrell, Washington County Shenk's wins were in the Alfalfa (later cutting) and Alfalfa-Grass (mixed) classes.

Galen W Crouse, Stevens R1, placed 1st in Sudangrass and 3rd in Grass (later cutting)

Other county placings included Mixed Hay, 2, Alfred Wanner, Jr., Narvon R2; 3, John S Yost, Narvon R2, Alfalfa (first cutting — part field, part heat dried) 2, Roy Mentzer, New Holland, Alfalfa (first cutting — field cured) 2, Frank Yost, Narvon R2

Co. Holstein Breeders Shut Out Of Farm Show Championships

Lancaster County Holstein breeders were shut out of all championship honors Tuesday at the Farm Show And only one county entry managed to place first in class

Penn Springs Bill Nancy, the home-bred two-year old heifer of Robert Kauffman, Elizabethtown R1, was first in her class and from there on, no local entry got above 2nd

Judge Clyde K Chappell, University of Tennessee, called the show of 173 entries one of the best he has seen 'You can tell the quality of a show by the number of animals that come out for the group classes When you have the quality going so deep in the groups and so many groups in a show of this size you know it's a good show and the breeders are doing a good job," he said

Chappell's favorite cow, F G-P Ivanhoe Regal Jan, a four-year old owned by Allen Peffer, Cumberland County, took all

Total Coops Sold — 947.

Swine Flu

Cases of flu are reported in many parts of the country this winter but I'd like to remind our readers that it's not just among humans Outbreaks of swine flu usually occur every winter with such symptoms as coughing, high fever, staggering, and loss of appetite With good management the pigs will survive and death losses have been very light The animals should be kept dry, quiet, and in draft-free quarters The infection susally runs its course in a few days Many outbreaks are introduced to the herd when new animals are purchased and brought to the farm. This is another time when segregation of the animals is very important.

More Dairy Products Under Import Controls

President Johnson, acting onStates, Secretary of Agriculture an investigation and report ofOrville L. Freeman announced the U S Tariff Commission, haslast week.
placed limits on additional dairy Annual quotas beginning Janproduct imports into the United uary 1, 1969 are as follows

	Annual Quota (Pounds)
Canned milk	5,391,000
Processed Edam and Gouda cheese	3,151,000
Processed Italian type cheese	1,494,000
Emmenthaler cheese costing less than 47c a pound	4,271,000
Gruyere-process cheese costing less than 47c a pound	3 289,000
"Other" cheese costing less than 47c a pound	25,001,000
Chocolate milk crumb	17,000,000
Butterfat/sugar mixtures in consumer packages are brought under the present quota for butterfat/sugar mixtures.	

With the new quotas in effect, the only cow's milk dairy products remaining outside the U S import control system will be: Emmenthaler cheese, Gruyere-process cheese, and the category of "other" cheeses, costing 47 cents a pound and over.

These are the high-priced miscellaneous specialty cheeses such as are normally found in gourmet food counters and stores Cheese made from goat's milk and sheep's milk also remains unrestricted, except for most Blue Mold-type cheeses

Dairy imports are limited under Section 22 of the Agricultural Adjustment Act, as amended, whenever the President finds that the level of dairy imports is such as to interfere or threaten to interfere materially with the U S price support program for milk and butterfat

Emergency quotas were placed on canned milk in June 1968 and on most of the cheeses concerned in September 1968 There have not previously been quotas on chocolate milk crumb, processed Italian-type cheeses and butterfat/sugar mixtures in consumer packages.

In announcing the emergency quotas and recommending the Tariff Commission investigation last June, Secretary Freeman noted that the world-wide dairy surplus was causing dairy products to be unloaded on the U S market in excessive quantities and usually at subsidized prices. He said the U S. market was particularly threatened by imports of low-priced cheeses used in processing in this country

The Secretary said the Tariff Commission agreed that unrestricted imports would interfere with the dairy program and recommended they be limited

It is estimated that 1969 U S. imports of all dairy products—both within and outside the import control system — will amount to approximately 1 3 billion pounds (milk equivalent). Such imports totaled 2 9 billion pounds in calendar 1967.

From Where We Stand ...

Many Points Well Taken

The Honorable D. Elmer Hawbaker, Senator of the 33rd District of Pennsylvania, made some comments in his speech to the 40th Annual FFA Convention in Harrisburg this week that we think are worth recording here. The Senator referred to the recent demonstrations in the capitol building of people on welfare who thought they should have an extra $50 for Christmas. "We were not too impressed," he said.

But he said he did wish these people could live next door to some 4-H or FFA members for awhile. "They would be better citizens if they did," he said.

"Most people get into trouble because they are bored and have nothing to do," he commented Referring to his childhood, the senator said his mother taught him that an idle mind was the Devil's Workshop. "You fellows," he said, referring to the FFA youth's crowded into the Forum, "have the chance to put the classroom teaching into a practical learning experience. And you learn the effect of earnings in relationship to effort.

Giving the illustration of a cow having a calf and the resulting decision to sell the calf and take a vacation or raise the calf for another cow, Hawbaker said a lot of people in our country have been selling their calves and now they are looking around at those who have raised their calves and see the resulting wealth. So, now they are going to government to say, "Give me something. After-all, every one is equal."

Quoting Jefferson, the senator said the only function of government should be to keep people from hurting one another. "If our state government limited itself to this," Hawbaker said, "the only tax we would need would be the one on cigarettes and we would still have a large sum left over."

"But government is used to distributing wealth and that's when you get into trouble," he said. "You can't distribute what hasn't been produced. The only way to do away with poverty is not spelled M-O-N-E-Y," the senator said. "It is spelled "W-O-R-K," he said.

The senator concluded by giving a formula for success that was handed down through his family for four generations. It is: 1. Live close to God; 2, Be a good neighbor; 3, Work hard; and 4, Save your money. The senator had a very appropriate message with many points well taken. At least that's the way it looks from where we stand.

Preserve Land For Agriculture

The following statement by the local Soil and Water Conservation District was presented in Harrisburg this week at the Preservation of Ag Land Hearings We agree with and support this text and present it here for your consideration

"The Lancaster County Soil and Water Conservation District considers land a most important natural resource Nearly all future growth depends on land.

"In the future, the manner in which land is used will, to a great degree, determine the quality of our environment.

"Forward looking planning at all levels is needed to assure future growth to be channeled in proper directions to avoid the problems of urban sprawl, helter-skelter suburbia, and horrendous traffic congestion presently besetting our urban society.

"The Lancaster County Soil and Water Conservation District recommends the development of a "Land-Use Policy for Pennsylvania". It is further recommended that this policy should be implemented by new State enacted legislation.

"Development of such a land-use policy should include the thinking of representatives of real estate brokers, home builders, manufacturing and transportation interests. In addition, counsel should be sought from professional planners, others engaged in the professions, those engaged in agriculture and from sportsman associations.

"The contribution of agriculture needs to be given careful study. Agriculture's role in providing open space, recreation, and the total value of agribusiness to the economy of an area, needs to be given careful consideration.

"Agribusiness is Pennsylvania's second largest industry amounting to 14 billion dollars annually. Agribusiness provided jobs for 2.1 of the 4.6 million Pennsylvanians employed. Agribusiness pays in wages 9.5 billion dollars annually in Pennsylvania. We have in Pennsylvania a 4 billion dollar food processing industry providing jobs for 8% of the manufacturing work force in the State.

"Land used in agricultural production can be quickly and cheaply converted to some future vital use not now recognized. Agricultural land provides open space and many recreational possibilities.

"For these reasons it is important to provide a favorable social and economic climate to encourage farmers to continue farming and make the heavy investments and take the risks necessary to keep their businesses viable. A zoning ordinance could label an area "for farming only", but this would not guarantee that the land would be farmed.

"In conclusion let us always bear in mind that, unlike people or even fish, land does not breed, it can be killed by human activity by the building of houses, roads and airports, because it is cheaper, quicker, and less trouble than to explore the alternatives."

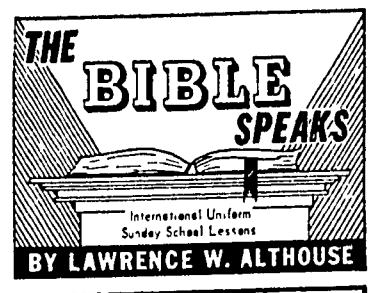
Local Weather Forecast

(From the U. S. Weather Bureau at the Harrisburg State Airport)

The five-day forecast for the period Saturday through next Wednesday calls for temperatures to average above normal with little day to day change. The daytime highs are expected in the mid 30's to mid 40's and overnight lows in the 20's to low 30's The normal high-low is 39-23

Precipitation may total one-half inch as rain over the weekend and again at the end of the period.



BAD COMPANY

Lesson for January 19, 1969

Background Scripture: Mark 2 1 through 3 6.
Devotional Reading Ephesians 1 3 14.

A young minister was asked to leave his congregation for what local church officials termed "conduct unbecoming a minister of Jesus Christ." This "unbecoming" conduct was a reference to the clergyman's attempt to minister to some of the "disreputable people" of the community. He had been seen in the company of some who were known in the community as "the roadhouse crowd." Some of these people had been noticed entering the parsonage and a few had even come to church on a few occasions (until it became apparent that they were not wanted).

Rev. Althouse

"That kind of people"

First the pastor was given a warning and then an ultimatum. Either he would cease this work or he would no longer be welcome. The pastor, the officials said, represents the congregation and cannot afford to do or say anything that might bring discredit upon it. A "Man of God", they said, would not associate with that kind of people, lest he set a bad example or fall victim to their influence.

These arguments seem reasonable enough. Yet, when we turn to Jesus, we find that he himself was criticized for his association with known sinners and other disreputable people. Not only did he refuse to shun these people, but he went where they were and sought them out. He visited in their homes and sat with them at their tables. It often seemed that he preferred their company to that of the respectable people and religious authorities.

"Why does he eat with tax collectors and sinners?" demanded the scribes of his disciples, (Mark 2:16 RSV). A respectable Jew was to have no social contact whatever with known sinners or Jews who were not exacting in their observance of the laws of Judaism. If one associated with people such as these, he contaminated his own righteousness and purity. To enter the house of or break bread with such a person was unthinkable. Thus we can understand why the scribes were so shocked and outraged at Jesus's actions.

Who needs physician?

He rejected their criticisms, however, and refused to alter his ministry to these people. True, they were sinners, but he had come to save sinners. You do not send a physician to someone who is well, but to someone who is ill. How could he reconcile these people to God if he could not associate with them and go where he could find them? On the other hand, he said with tongue-in-cheek, his critics did not need him, for they regarded themselves as righteous men and he had no ministry to the righteous!

The scribes could not help but notice that the words of Jesus were more than just a defense of his own actions. They were also an implied condemnation of their own hypocrisy. If they were really as righteous as all that, why weren't they ministering to sinners? Seeing Jesus sit with sinners, they asked: What are you doing in there? But in effect Jesus replied by asking: What are you doing out there?

Jesus implied that these pious people actually enjoyed condemning sinners rather than in reconciling them to God. Condemnation is always easier than redemtion. It helps us to feel more secure if we can find someone else to condemn. Yet even Jesus, who of all men had the right to judge others, came "not to condemn the world, but that the world through him might be saved" (John 3:17).

Not to condemn

Professor Wilson of Edinburgh said that he frequently thanked the Lord that he never lost his taste for "bad company." In that he was like his Master, who never, despite the threats and opposition of his critics, swerved from his ministry to those who needed him and the Good News.

Many Christians and churches today seem to have lost their taste for "bad company," and with it their mission to those who need the Master. What of you and your church?

NOW IS THE TIME...

By Max Smith
Lancaster County Agent

To Do Farm Planning:

Modern farming is a business and requires careful planning months ahead of time of action During the next month all plans should be made for the 1969 cropping season and other farm enterprises The 1968 farm records should be utilized as a guide for what to do in the future.

To Buy Machinery Carefully:

And, now that many farmers have inspected the new machinery that was exhibited at the Farm Show this past week no doubt the urge to trade the old model for a new one is getting quite strong This might be the economical thing to do in many cases, but let's be sure the new machinery is needed, that it is the proper size (not too big). and that it will pay for itself in the next ten years.

To Increase Production Per Unit:

Many farmers are increasing the size of their business in order to increase net profits This might work in some cases, but more volume does not always mean more profit. Good management toward efficiency and maximum production of present units is necessary on all farms before expansion may be expected to give greater net returns Good management must exist on any size farm before maximum returns may be realized

Mark S. Hess

Mark Hess Manager Of Agway Unit

Mark S Hess a native of Lancaster County, has been named Unit Manager of the Garden Spot Unit of AGWAY Lancaster, it was announced by R Art Cochran, Area Manager

Hess succeeds Kenneth Emerson, who has taken a position in AGWAY'S Western Division, as Manager of a large retail store and grain elevator at Geneva, New York

In his new position, Hess assumes responsibility for distribution of farm production supplies through stores located at Lancaster, New Holland and Quarryville His headquarters are in Lancaster

Hess began his AGWAY career in 1944 and has served on local and regional Boards of Directors, as manager of Feed Operations and in charge of Poultry Contract Production Services throughout Pennsylvania

Before assuming his new position, Hess had been manager of AGWAY'S Tobacco Marketing program He will continue to supervise this marketing function

Prof Says Slick Pavements Doom Drivers

MADISON, WIS — "If all drivers could see what I've seen, there would be few careless drivers on the road today," says Prof Archie H Easton, nationally known accident investigator and Director of the Motor Vehicle Research Laboratory of the University of Wisconsin

Referring to the grisly scene he often encounters when summoned to an accident site, Prof Easton said: "I certainly would not want to force people to see these sights, but I often think that it would do some drivers a world of good to see first-hand the tragic consequences of drinking and driving, a moment of carelessness or inattention, or a simple case of poor judgment"

As Chairman of the National Safety Council's Committee on Winter Driving Hazards, Prof Easton is particularly concerned about the added hazards at this time of year caused by ice and snow-covered pavements and the resulting consequences

"Judging from some of the accidents I've seen, many drivers obviously have no concept of the extremely limited traction on these surfaces Tests have shown, for example, that the braking distance on glare ice may easily be as much as nine or ten times the normal dry pavement distance, meaning a stopping distance of 150 to 200 ft at a speed of only 20 mph compared with about 17 ft. on dry pavement," he explained

"Whenever the pavement is snowy or icy, the best advice is to first get the 'feel' of the road This can be done by trying the brakes or by accelerating carefully to see whether the wheels skid or spin. If the car has any tendency to skid or 'fish-tail,' then it's time to slow way down and do all maneuvering—braking, steering or accelerating — with a very gentle touch," advised Easton

When asked whether special traction devices, such as snow tires and tire chains were helpful under these conditions, he replied that the National Safety Council's tests showed that conventional snow tires were of little or no benefit on glare ice but that they provided about half again as much traction in loosely packed snow as regular tires Studded snow tires, on the other hand, materially improve traction on ice, providing about three times the pulling ability of regular tires and reducing braking distances by 19 percent, according to the test findings

For severe conditions on both snow and ice, Prof Easton recommended reinforced tire chains He said that tests showed chains provided from four to seven times the pulling power of regular tires on snow and ice and reduced braking distance on glare ice by 50 percent.

"But regardless of the help provided by these traction aids," concluded Easton, "drivers should realize that performance on snow and ice is nowhere near that on dry pavement, and that speeds must be sharply reduced."

CHECKING ON THE POULTRY LAB. SITES are left to right, Jack Huber and Claude Hess representing the Lancaster County Poultry Association and Dr. Edward T. Mallinson, Bureau of Animal Industry and Homer Bicksler, Pa. Poultry Federation. The state representatives were in the County to investigate the two proposed sites for the new proposed poultry diagnostic laboratory being sponsored by the local poultrymen. The sites visited Wednesday morning were an acre plot located along Route 501 across from the Lancaster Airport owned by John Huber and a lot near the New Holland Boro line owned by Victor F. Weaver, Inc.

Corn Stover Has Potential

HARIRSBURG — Corn stover represents an enormous potential as feed or bedding in addition to boosting returns per acre, a Penn State agricultural engineer told members attending the Pennsylvania Crop Improvement Association annual meeting at the 53rd Farm Show

Burton S Horne said stover accounts for half the plant material produced in an acre of corn and is usually left in the field and considered a nuisance when tilling and planting operations are being carried out

"Corn stover is an alternative feedstuff when roughages are expensive" Horne said "and can be used as bedding when straw is in short supply"

At the present time there are four methods of stover retrieval, the ag engineer said, and each is relatively cheap to operate These include the corn head combine with blower and collection trailer, flail-type forage harvester, hay baler with flail pick up type attachment, and forage combine The forage combine is in the experimental stage at two land-grant institutions

"The future of corn stover usage will be dependent on several factors including types of feeding programs, basic crop quality, timing of corn harvest and stover retrieval, and machine costs and field capabilities" the Penn State specialist emphasized

Farm Women Hold State Convention

HARRISBURG — The Society of Farm Women of Pennsylvania held its 50th annual convention January 13 and 14 in Harrisburg with about 500 women in attendance.

State Secretary of Agriculture Leland H Bull, paid special tribute to the Society on this occasion and welcomed the group to the 53rd Pennsylvania Farm Show The Secretary reviewed some of the many changes taking place in agriculture and related fields He stated that the Candy Law of 1887 was the first of Pennsylvania's consumer protection laws passed

Secretary Bull pointed out that the 1968 Federal candy regulations, incorporates much of this old Pennsylvania law. He also stated that to handle the requirements of the 1968 Pennsylvania Meat Inspection Law, the Department is conducting intensive training for inspectors

"This protective service is a characteristic of modern trends that are affecting not only agriculture but also the people served by agriculture," the Secretary said He reminded the audience that "we must be ready to meet the challenges of the seventies if we are to keep our agricultural economy sound and keep pace with the progress of Pennsylvania."

Secretary Bull urged the Society to join with other agricultural groups in supporting efforts to obtain adequate, modern Farm Show facilities The Farm Show has outgrown buildings that were designed and constructed in another day and age and is seriously handicapped by lack of space, he said.

Mrs W F. Dummer, Thomasville, RD 1, York County, president of the state society, presided at both the morning and afternoon sessions in the Forum of the Education Building.

In addition to the Secretary's address, the day's program included reports of county presidents and entertainment by the members of the Harrisburg Civic Ballet of which Caroline DeLone is artistic director.

FARM SHOW BITS and PIECES

A visitor to the Farm Show echoed the feeling of Secretary of Agriculture, Leland Bull when he walked into the exhibition hall, looked around and commented to a companion, "Everything's getting bigger."

* * * *

John Watson, 838 Lime Valley Road, Lancaster, took two first prizes with his entries in egg competition. He had the best five dozen and one dozen, both in commercial classes.

* * * *

One visitor traveled 15,000 miles to attend the 53rd Farm Show — all the way from South Africa. Leon Oelschig, a 27-year-old grain farmer, made a visit to the Farm Show part of his itinerary when it was recommended by a Detroit, Michigan, man who visited South Africa.

* * *

The best dressed turkey display was exhibited by Harry Lamparter of Mountville and the reserve turkey carcass honor was won by James Esbenshade, of Paradise.

* *

A Hampshire pig at the Show was either the best-mannered hog on the place or else the most mis-guided. It seems when he was being herded back to his pen following Tuesday morning's swine sale, he got sidetracked into the nearest men's room. This presented a problem for the herder She was a lady. But it all ended well. A nearby FFA member came to the rescue and got the pig back to his pen.

* * *

Douglas S. Martin, Pequea R1, captured first place in the class for first year members in the 4-H Entomology Classes

* * *

More than one curious visitor has been heard to remark about the "self-serving" calf nursing unit in one of the exhibit displays. They think parents would save many hours of lost sleep if they could feed their children like the automatic calf feeder does.

* * * *

Eugene Bollinger, Denver R2, was the winner of the 4-H 10-ear-hybrid dent class at the Farm Show

* *

There is a lot of uproarious action takes place each morning before the Farm Show is open to the public The scene of the action is the poultry barn and the time is around daylight It is customary for roosters to greet the new day, and being at the Show doesn't seem to dampen their enthusiasm.

* * * *

Garden Spot High School in the Eastern Lancaster County School District placed second in the Home Economics division of School Window Exhibits. The exhibition was titled "Sewing Sense Reaps Dollars," and won the school $65.

* * *

One lady when asked what she likes about the Farm Show replied, "It's just like going window shopping" And another lady, who travels about 75 miles to attend each year counts the baked potatoes and milk shakes as the highlight of her visit.

* * * *

Mrs. Martin Greenleaf, Oxford R1, was elected treasurer of the Society of Farm Women of Pennsylvania at its 50th annual convention held at the Farm Show Certificates of achievement were presented to Mrs. Paul Witman, Mount Joy R1 and Mrs Scott Nissley, 1414 Nissley Road at the same convention. Lilli Ann Wivell, Columbia R1 and Sandra Shenk and Josephine Nissley both of Washington Boro R1 received $300 scholarships from a fund established in 1960 to honor the founder of the Society, Mrs. Frank B. Black

* * * *

The 154 steers entered in the 4-H Baby Beef competition Thursday at the 53rd Farm Show in Harrisburg weighed a total of 150,420 pounds, or an average of 977 pounds each, show officials said.

That is the equivalent of 95,000 pounds of dressed carcasses, which is enough to provide more than a quarter million hamburgers, adds B Wayne Kelly, extension farm management specialist at the Pennsylvania State University

Among the breeds of cattle entered in the baby beef competition are· 12 Shorthorns from six counties; 79 Angus from 15 counties; and 66 Herefords from 13 counties

Of the 11,750 pounds of market lambs which were exhibited, about half were 4-H entries Market lambs dress out at about 50 percent of their live weight

* * *

Lazy trout fishermen will be interested in a machine being displayed at the 53rd Pennsylvania Farm Show. It is a small, gas-driven six-wheel vehicle which operates on land or water

"Fish while you float downstream and drive the vehicle home after you're through fishing," exhibitors say.

* * *

Pequea Valley FFA Chapter won second award of $40 in the Pennsylvania Electric Association Demonstration at the Farm Show Third place went to Warwick High School FFA Chapter with a $25 award

* *

Wayne Keefer, 19, son of Mr and Mrs. Elwood F. Keefer, Lewisburg R2, was named the FFA "State Star Farmer" Keefer is a 1968 graduate of Mifflinburg Area High School in Union County

* * *

Anticipating traditional Farm Show weather, Farm Show officials arranged to have the latest type of snow removal equipment on hand A special snow blower was to be demonstrated but, as it turned out, the only thing the machinery did was to glisten in the pleasant January sunshine

* *

Pequea Valley FFA and Warwick FFA were 5th and 6th in the School Demonstration Award List The demonstrations were given during the Farm Show this week

* *

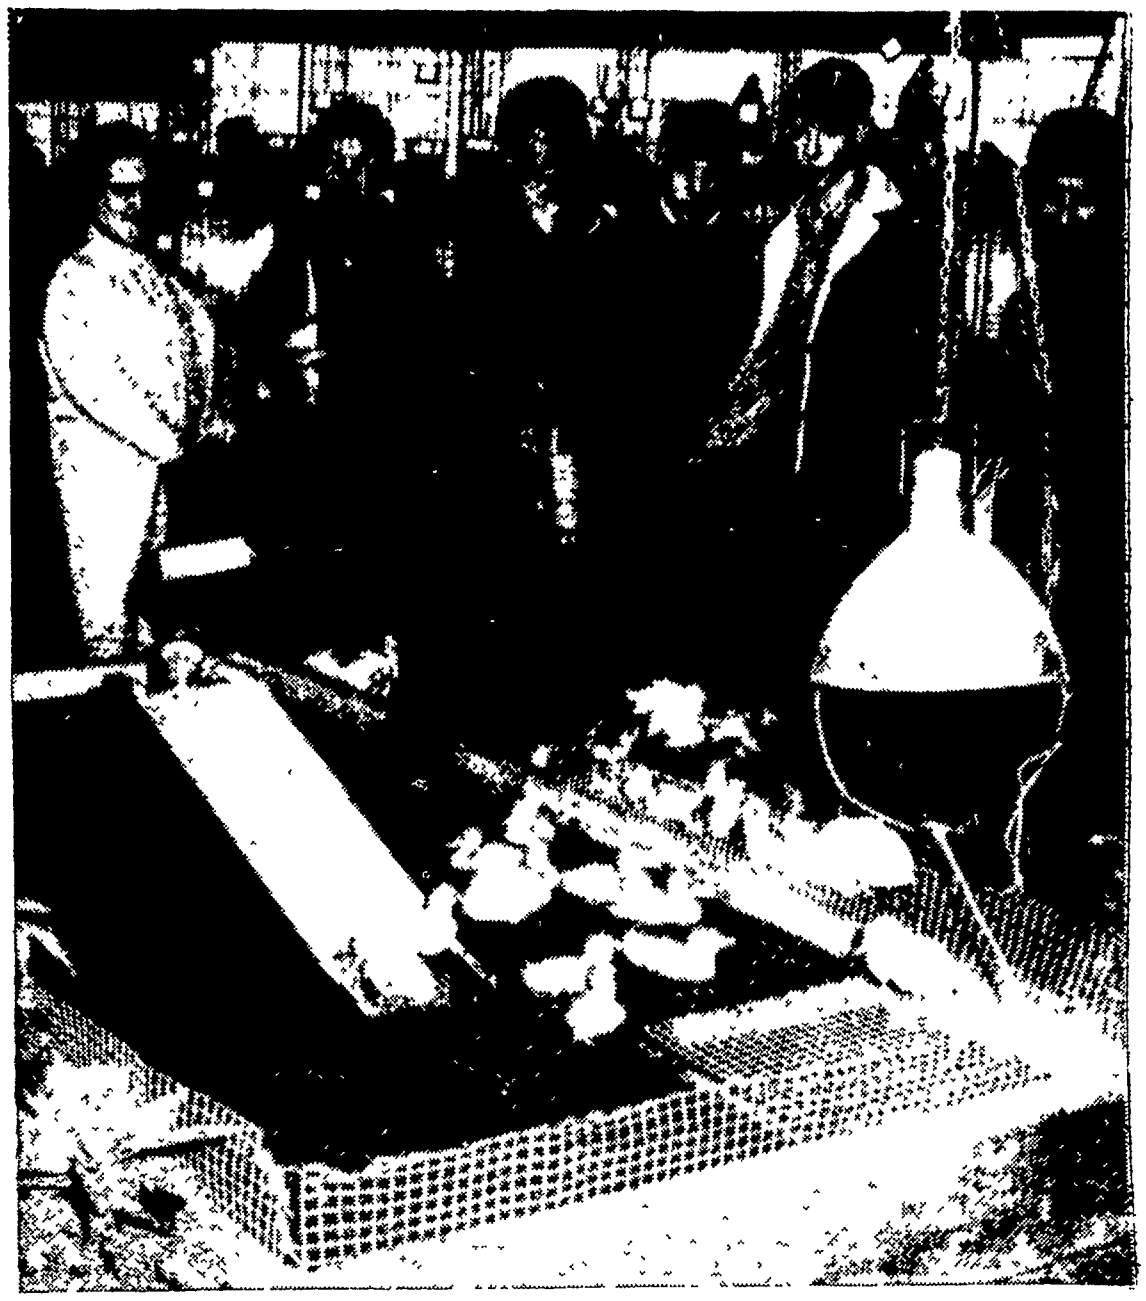
The calf crop at the 53rd Pennsylvania Farm Show totaled five by Wednesday.

The new arrivals include four males and one female, with the lone heifer a Brown Swiss.

Bull calves included two Holsteins, a Guernsey and a Jersey

Owners of Holstein calves are George M. Knight, III, of Airville, York County, and Allen Peffer, of Carlisle, RD 6, Cumberland County. Peffer's grand champion cow, in both open and junior competition, is the calf's mother

Allen Rohrbaugh, of New Freedom, RD 1, York County, is the owner of the new Guernsey calf, Vincent A W-[illegible]er, of Bernville, RD 2, Berks County, owns the new Brown [illegible] and Meryl H Sheaffer [illegible] Sons, of Carlisle, RD 5, Cumberland County, own the Jersey calf.



DUCK DISPLAY at the 1969 Pennsylvania Farm Show held in Harrisburg this week. The Ducks had their own little pond, a heat lamp and a sliding board for perfect duck comfort while attracting much attention from the huge crowds that daily filled the Farm Show building.

Jesse Balmer, Lititz R4, was one of the newly-elected directors named at the Guernsey Breeders 38th annual meeting held at the Farm Show Balmer is to serve for a period of three years.

* *

Nearly 16 tons of french fries and baked potatoes were consumed in the first two days of the 53rd Pennsylvania Farm Show

Owen L Barkley, general manager of the Pennsylvania Potato Growers Cooperative Inc, said the organization's concession had a record breaking opening day Monday when eight tons were sold

Barkley observed that youngsters prefer french fries while the older folks prefer baked potatoes, long-time Farm Show favorite

* *

Naaman Stoltzfus, Jr, 19, of Morgantown, was selected as the Pennsylvania Holstein Boy as announced at the annual Holstein Farm Show breakfast program Stoltzfus, son of Mrs Mary B Stoltzfus, has completed seven years of FFA and 4-H dairy projects and owns twelve head of registered Holsteins that he values at $12,600.

* *

One of the unusual attractions at the 53rd Pennsylvania Farm Show is a native wildcat, caught in Northern Pennsylvania and displayed by the State Game Commission

The 20-pound, slate gray animal is about three years old, according to the Game Protectors

Also known as an Eastern bay lynx and bobcat, the animal is normally kept at the Hershey Zoo.

Asked the boss if he was planning a flower garden, and he snapped that a full crop of blooming idiots in the office was enough for him.

Farm Show Swine Sales

Hampshire gilts at the 53rd Pennsylvania Farm Show brought slightly lower prices than those of a year ago.

"Miss Eager 11-4", a gilt consigned by Strawbridge and McCleary, of Stewartstown, York County was sold to Henry Hall, Jr, of Hopewell, RD 1, Bedford County, for $270

The reserve champion, "Miss Eager 11 1," also exhibited by Strawbridge and McCleary, brought $230 The gilt was purchased by Dean W Fetterolf, of Centre Hall Centre County

Total volume of the sale of 36 head was $4 745 00

POLAND CHINA

Prices paid for Poland China gilts were substantially higher than those paid a year ago

Richard P Sholley, of Jonestown, RD 1, Lebanon County, exhibited the champion gilt, "Miss Profit Display." The animal, sold to Eugene Boeshore, of Jonestown, RD 1, brought $220

The reserve champion, "Ballot Girl," consigned by Eugene Boeshore, of Jonestown, RD 1, was sold to Locust Lane Farm, of Hershey, Dauphin County, for $140.

The 18 animals sold for $1,805 00 and the average was $100 22.

The 1968 average price was $83 42

YORKSHIRE

Yorkshire gilt prices averaged slightly higher than those of a year ago.

The grand champion, "Brooks End Opal," consigned by Reno H Thomas, of Beavertown, Snyder County, brought $340 The gilt was purchased by Philip C Armstrong, of Woodland, RD 1, Clearfield County

"Par Kay Susan," a gilt consigned by Park F Thomas, also of Beavertown, won the reserve championship The animal, sold to George Ruoff, of Jeanette, Westmoreland County, sold for $310

Total volume of sale on 40 head was $6,205 00 and the average price per animal was $155 - 12

SPOTTED SWINE

Prices paid for Spotted Swine were slightly lower than those paid a year ago

The grand champion "Special Ginger," consigned by Richard P Sholley of Jonestown, RD 1, Lebanon County, brought $145 The gilt was sold to Walter Gordon, of Jefferson, Md A gilt owned by Sholley brought the top price at last year's show.

The reserve champion, "Scottown Star XI," owned by Wendell McKissick, of Slippery Rock, RD 3 Lawrence County, was sold to Richard A Kreager, Jr, of Schuylkill Haven, RD 2, Schuylkill County, for $120

The 24 head sold for $2,645 00 and the average price per animal was $110 20

Herr Entry Wins In Breeding Sheep Class

Lancaster County brought home a reserve grand championship in the breeding sheep classes Monday at the Pa Farm Show when Mr and Mrs Robert D Herr, Narvon R2, won with a Ewe under one year Their entry placed second and followed the first place entry in class to the reserve champion spot. Mr and Mrs Herr also had a 4th and 5th in the same class.

In the Hampshire Division, Robert R Buch, 956 W Main St, had the 5th and 6th place Ram under one year and placed 5th in each of three other classes — three Ewe Lambs, Breeder's Young Flock and Pen of Lambs

Farm Show

SHORTHORN BREED CHAMPION. Larry Herr, 840 Penn Grant Road, showed his 1000 pound Shorthorn 4-H project to the breed championship Thursday at the Farm Show. The steer named Shorty was first in the heavy weight class. L. F. Photo

JAMES DUNLAP (left), representing the Lancaster Livestock Exchange, accepts an FFA State Citation Award from James Fink, State Advisor, at the 40th Annual State FFA Convention held in Harrisburg this week. The award was made for special assistance the Exchange has given the FFA Association. L. F. Photo

● Local Youth

(Continued from Page 1)

continued, this class was to hold the key to the Show's highest honor. The York County girl was selected the breed champion instead of any of the three Lancaster County eligibles And later, when the over-all champion was selected, it was the heavyweight Hereford that was tapped the grand champion of the Farm Show.

Bollinger was named the reserve champion in the Hereford breed and in the Angus breed Michael Longenecker, Lititz R2, topped the medium weight class and went on to the reserve championship in that breed. But Robert Peffer from Cumberland County had the best Angus that was also named over-all reserve grand champion behind the York Champion. County placings are as follows:

SHORTHORN, (light weight) 3, Dale Enck, Holtwood R1, 5, Donna Hess, Strasburg R1; 6, Larry Landis, Quarryville R1 (heavy weight) 1, Larry Herr, 840 Penn Grant Rd.; 3, Eugene Bollinger, Denver R2.

HEREFORD, (light weight) 1, David Enck, Holtwood R1. (medium weight) 1, Marlin Bollinger, Denver R2; 3, James Greider, Columbia R2; 4, Darlene Neff, Mt. Joy R2; Donna Walter, New Providence R1, 7, Harry Nissley, 1902 Millport Road; 9, Gerald Hess, Mt. Joy R1. (light-heavy) 1, Nancy Herr, 840 Penn Grant Road; 2, Clark Stauffer, Ephrata R1; 3, Marian

(Continued on Page 12)

FIRST PRIZE four-year-old Mare, Fanny Farceur II, shown by Elmer Lapp, Kinzers R1. Lapp also had a 4th place in the same class and a 2nd and 3rd in the Stallion Foal Class and a 4th in the two-year-old Mare Class. L. F. Photo

WINNER IN THE BERKSHIRE SOW VOCATIONAL CLASS at the Pennsylvania Farm Show this week in Harrisburg was Eugene Bollinger, Denver R2. Eugene had both the first and second place junior sow pig in the show. L. F. Photo

KENNETH WEBER introduces his parents Mr. and Mrs. Howard Weber, Mohnton R2, to the huge crowd of State FFA youth in the Forum Wednesday afternoon. Kenneth is Secretary of the Farm Youth organization and presented his mother with a Citation Certificate and his father with the Honorary Keystone Farmer Degree. The scene was staged at the program of the 40th Annual State FFA Convention held in conjunction with the State Farm Show. L. F. Photo

Pictorial Report

GRAND CHAMPION 4-H LAMB. Ted Bushong, Columbia R2, showed the grand champion individual 4-H lamb at the Farm Show Thursday. The Bushong entry, a Hampshire, was also judged breed champion. L. F. Photo

RESERVE ANGUS BREED CHAMPION. Elroy, the coal-black 4-H steer project of Michael Longenecker, Lititz R3, was the Angus breed reserve champion at the 4-H Baby Beef Show held at the Farm Show this week Michael is the 17-year-old son of Mr. and Mrs. Carl Longenecker. L. F. Photo

BRENDA ESHLEMAN, Elizabethtown R1, shows her sister Donna's Ayrshire heifer to first place in the 4-H two-year-old heifer class at the Farm Show this week. Donna is at college so 11-year-old Brenda took over family responsibility. The girls are daughters of Mr. and Mrs. Kenneth Eshleman. L. F. Photo

THE RESERVE 4-H HEREFORD BREED CHAMPION at the Farm Show this week was shown by Marlin Bollinger, Denver R2. Marlin, 15, is the son of Mr. and Mrs. Paul Bollinger. L. F. Photo

4-H Lamb

(Continued from Page 1)

entry, a Hampshire was also judged breed champion, and the Bland lamb was Southdown breed champion.

Jennie Yearick, of Paxinos, RD 1, Northumberland County, exhibited the champion pen of lambs and Linda Flory, of Red Lion, RD 2, York County, the reserve champion pen Miss Yearick's lambs were also judged Hampshire breed champions and the Flory entry is a pen of Dorsets.

CHEVIOT — Eugene Bollinger, of Denver, RD 2, Lancaster County, exhibited both the champion individual and pen of lambs The reserve champion individual and pen were shown by Perry Zeigler, of York, RD 8.

DORSET — Becky Bushong, of Columbia, RD 2, a former Farm Show lamb club champion, exhibited the champion individual lamb and reserve champion pen Linda Flory, of Red Lion, RD 2, York County, showed the champion pen and reserve champion individual.

HAMPSHIRE — Ted Bushong, of Columbia, RD 2, Lancaster County, showed the champion individual market lamb and Jennie Yearick, of Paxinos, RD 1, Northumberland County, the champion pen Reserve champion individual was shown by John Martin, of Pequea, RD 1, Lancaster County, and reserve champion pen by Ted Bushong

SOUTHDOWN — William Bland, of 435 E Irvin Ave, State College, Centre County, showed the champion ewe, and Debbie Everett, of Bloomsburg, RD 5, Columbia County, exhibited the champion pen. The reserve champion individual and pen was shown by Linda Ober, of 532 Petersburg Road, Lancaster.

SHROPSHIRE — Kathy Donough, of Manheim, RD 1, Lancaster, a former Farm Show lamb club champion, exhibited the champion pen of Shropshires. Her entries were the only ones shown in the class. In the open class, Mr and Mrs. Robert Herr, Narvon R2, showed the reserve champion wether in the Dorset Market Lamb Class.

NEWER SEEDING PRACTICES IMPROVE FORAGE YIELDS

HARRISBURG — Research conducted at Penn State has proven that good stands of legumes are possible even under unfavorable conditions if certain practices are carried out, an extension agronomist told members attending the annual meeting of the Pennsylvania Crop Improvement Association at the 53rd Farm Show.

Dr. John E. Baylor pointed out that excellent stands were established in trials by band seeding in the spring on a well-prepared seedbed and using a packer-wheel drill or some other means of firming the seedbed.

A View From The Governor's Office

By Gov. Raymond P. Shafer

This month, Pennsylvania, along with the entire nation, moves into the last year of the 1960s — a tragic, turbulent, yet one of the most exciting decades in the history of mankind.

War, riot, social and scientific revolution, combined with rising costs and rising expectations, have brought fatigue to the spirits of some and anger to the hearts and minds of others.

Yet, we have flown to the moon, incredulously, with Borman, Lovell and Anders, in a demonstration of scientific perfection that puts our earthly human imperfections to shame.

Nevertheless, around the world, this moon voyage sent men't hope soaring and gave them reason to believe anew in their ability to solve their problems, and to discover and create something better in the eternal search for a good life.

The challenges of the 1970s will be awesome and confusing, but inspiring if all of us have the will and determination to make the effort.

New technology will help us unfold the mysteries of space in such magnitude that the first moon flight will seem, in retrospect, like a simple jet trip across our continent.

Products from experimentation and research will offer new opportunities for better health and prolonged life:

New, lighter, more durable materials for better homes and buildings in new towns and rebuilt cities that are free of pollution and waste;

New vehicles for speeding us, and our products, over land and water at hundreds, if not thousands, of miles an hour;

New machines for revolutionizing work habits and more time for creative thinking and leisure;

New prosperity for everyone to share, for those who want to and who make the effort

This new age is coming as surely as the age that produced Apollo 8.

Will we Pennsylvanians be prepared for it? Or will we fail to see it before it flies by us, as did the aerospace age and with it some of our finest young talent?

That question will be partially answered in the next two years because we have come to a point in the affairs of the Commonwealth where attitudes are polarizing.

One group says progress be damned. Stop wasting our money.

And at the other end, there are those who say we are affluent and have all the money we need to solve our problems if we will only part with it

For Pennsylvania's sake we must find the way to reconcile this conflict, as we must continue to take a sane, balanced course toward the solutions to our present problems and still make the effort that will bring us our proper share of the prosperity of the 1970s

To that end, last week I set before the General Assembly a series of five distinct goals which, if attaind, will speed us on the way

Goals embracing continued economic growth, better living conditions, improving the status of the individual, additional protection for the health and wellbeing of all citizens, and the improvement, within Pennsylvania, of the democratic process itself

Pennsylvania is, indeed, headed for a difficult year of decision — for the present and for the new decade ahead Certainly all the elements of a possible bitter partisan battle are present in Harrisburg

But, so, too, are responsible men And I, personally, am hopeful that reason — and the desire to do what is best for Pennsylvania — will overcome any desire for partisan gain. For, only if we can somehow meet these goals can Pennsylvania's progress in the 1970s be secured.

Pennsylvania's Growing!

If your interests and abilities are in tune with today's modern electronic age, Pennsylvania has some great job opportunities that are exactly suited to your skills.

In the past ten years, Pennsylvania's economy has expanded rapidly—so rapidly that new job openings are a daily happening in practically every field. Whether you're interested in aeronautics or zoology (or any of the fields in between), Pennsylvania has more to offer every day for people with the right skills and the ambition to put their talents to work.

For a great future, try the growing Pennsylvania!

RAYMOND P. SHAFER, *Governor*

One of a series sponsored by the Pennsylvania Newspaper Publishers Association and presented as a public service as part of this newspaper's participation in the program of '100,000 Pennsylvanians' for the Promotion of Economic Growth, a non partisan, non-profit, privately financed citizens' group.

OFFICERS OF ALPHA OMICRON CHAPTER OF EPSILON SIGMA PHI, national honorary Extension fraternity, for 1969 are, from left: W. W. Clarke, Extension entomologist at The Pennsylvania State University, secretary - treasurer; Mrs. Rachel W. Hoffmeier, Carbon County Extension home economist, president, and M. M. Smith, Lancaster County agricultural agent, vice president. Elections were held at the chapter's recent annual meeting on the Penn State campus.

Diseases Enter Poultry Flock By Three Methods

University Park, Pa — Diseases — probably the cause of most concern in the poultry business — may originate in a flock in three different ways, according to the new "Poultry Handbook," published by The Pennsylvania State University College of Agriculture

"Diseases are brought on the farm with new poultry, contamination as a result of carry-over from previous flocks, and are introduced by a lack of sanitation or relaxation of security measures," said Dr L Dwight Schwartz, Penn State Extension veterinarian, one of the publication's authors

Poultry house sanitation requires that you begin each flock with clean, disease-free quarters, Dr Schwartz points out Each housing area should be rested a minimum of two weeks after it is disinfected and fumigated before the new poultry are moved in.

The "Poultry Handbook," which contains the most up-to-date poultry health information found anywhere in the United States, may be purchased for $1 50 plus 6 percent Pennsylvania sales tax Make check or money order payable to The Pennsylvania State University and send with your name and address to POULTRY HANDBOOK, Box 6000, University Park, Pa 16802

The volume also contains sections on incubation, brooding, pullet rearing, table egg production, engineering, business management, marketing and processing, and broiler and turkey production

This handbook is designed to be of use to the commercial poultryman as well as the general farmer who includes poultry among his other enterprises

Complete Records Service Offered

Income tax returns, which are processed by computers for the Internal Revenue Service, simplifies the problem of checking more returns for completeness and accuracy The end result is that taxpayers will need more up-to-date records and farmers will be no exception.

The Cooperative Extension Service of The Pennsylvania State University has developed a computer farm records program which is designed to help farmers keep more complete records, says Associate County Agent, Jay W. Irwin He points out this new service is available to all area farmers.

The depreciation program, he said, is designed so that the computer does all computations and prints out a complete schedule ready to mail with your tax return The computer has found many errors in present depreciation schedules that favor the taxpayer Errors of arithmetic are very common with many taxpayers losing depreciation.

The program is also designed so that investment tax credit is taken on all allowable items This is worth a $210 tax saving on a $3,000 purchase.

Contact the Agricultural Extension Service, 1383 Arcadia Road, Lancaster, for more details on this program.

Farm And Home Foundation To Hold Ed Meets

The Lancaster County Farm and Home Foundation announced a series of three educational meetings for the citizens of the county this week. These meetings will be in the form of a panel discussion presentation and will be open to the general public free of charge

All three meetings will be held in the auditorium of the Farm and Home Center, 1383 Arcadia Road, Lancaster, Pennsylvania (Turn east from the Manheim Pike on Service Road, just north of Jones Pontiac Company) Starting time will be 7 30 p m for each meeting. The dates and speakers are as follows:

Thursday evening, Jan. 23:
Topic "LAW ENFORCEMENT AND THE PUBLIC"

Speakers David M Rineer, Chief, Lancaster City Police Department Clarence C Newcomer, Lancaster District Attorney. John W Beyer, Lancaster Bar Association.

Thursday evening, Feb. 27:
Topic: "PARENT-CHILD RELATIONS"

Speakers Dr William M Smith, Pennsylvania State University Dr Paul Z Rummel, Millersville State College Rev A J Simmons, Bethel Methodist Church Dr Richard Canfield, Phil-Haven Hospital, Mount Gretna

Thursday evening, March 13:
Topic: "LANCASTER COUNTY — 1985"

Speakers: Dr Robert F Eshelman, Franklin & Marshall College Edward Daniels, County Planning Commission William M. Carroll, Pennsylvania State University.

NEXT WEEK!

Poultry Promotional Events Staged At Harrisburg Show

HARRISBURG — The Pennsylvania Poultry Federation, held its annual banquet at the Penn Harris Hotel on Wednesday, during the Farm Show. Featured speaker was Dr. Thomas Haggai, internationally known speaker from High Point, North Carolina, whose topic was "Can We Be Brought Together?" Also appearing on the banquet program were Walter E. Wheelock, Pennsylvania Poultry Federation President; Leland H. Bull. Pennsylvania Secretary of Agriculture, and Gale Romesberg, Pennsylvania Poultry Queen.

According to Co-Chairmen Hendrik Wentink, Donald E. Horn and George Hauer, the banquet, which was a fund raising venture for the Poultry Federation, was a sell-out crowd.

During an afternoon meeting sponsored by the Federation Dr. Roland Leach, Pennsylvania State University Nutritionist, discussed "Advances In Poultry Nutrition". The meeting was held in the Dept. of Agriculture Building. A panel discussion was also held featuring the subject "I Grow Pullets This Way Because . . .". The four panel members were Warren Burr, Russell Latshaw, Vernon Norris and James Schubin. The panel was moderated by Dr. Floyd Hicks, Poultry Extension Specialist, Penna State University.

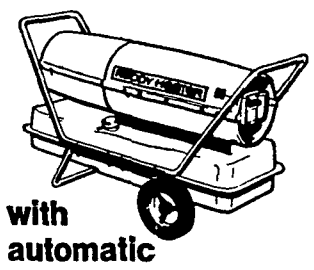
During the five day show Pennsylvania Poultrymen operated their Food Booth on the main floor of the Farm Show Building. Foods served include pickled eggs, egg nog, turkey and chicken sandwiches, chicken corn soup. An all White meat broiler sandwich was added to the menu this year as the featured new item

On the Governor's Preview Day Sunday at the show, Pennsylvania Poultry Queen, Gale Romesberg, presented a 35 lb turkey as a product representing her industry, to Governor Shafer She with 11 other agricultural commodity queens toured the show, attended the Pennsylvania State Police Rodeo in the Arena, and were ambassadors for their groups All of these queens were presented with scrolls by Governor Shafer making them members of the 100,000 Pennsylvanians

With the cooperation of the Pennsylvania Poultry Federation, Pennsylvania State University, and the Bureau of Markets, Penna Dept. of Agriculture, the Poultry exhibit was revised to include not only the live bird displays, but the complete story of the egg from its incubation, through the growing and laying process of the young chicken, to the grading and packaging of the egg New Poultry products were featured in tastefully decorated refrigerated cases, and home economists were on hand daily in a display kitchen cooking recipes using poultry and eggs to advantage. The Penna. Game Breeders Association also had displays indicating the growing of game birds as a fine hobby venture.

INSTANT HEAT!

Powerful 150,000 BTU Reddy Heater



with automatic shut-off control for unattended operation

The answer for farmers, building tradesmen, businesses, outside contractors—anyone who needs high-volume portable heat around the clock. Safety control automatically stops motor, fan and fuel supply if operating conditions warrant. Runs over 13 5 hours on one tank of low-cost kerosene. Has built-in thermostat. Mounted on big rubber-tire wheels for easy maneuvering. Ask us for demonstration.

MUSSER LEGHORN FARM FACTS

90% of MUSSER'S M-327 chick sales during the past 3 years were sold to the same poultrymen year after year.

95% of MUSSER'S M-327 20 to 22 week-old matured pullets, ready to lay for the past 3 years were also sold to the same poultrymen year after year.

The Musser Leghorn Farms hatched and raised 22 different ages of Musser M-327 pullet chicks to maturity yearly for the past 3 consecutive years by keeping coccidiosis well under control and leukosis at a minimum. We believe that by building resistance to our strain of Musser M-327 Leghorns on our own farm and that by raising them in close proximity to older birds, that we can better assure you of success if you purchase Musser M-327 chicks this year.

The Musser Leghorn Farms believe that their methods of resistance controls, plus an intensified breeding system and a lot of good common sense is responsible for our success.

Place your order now for MUSSER'S M-327 chicks early, so you will be prepared to be a year after year customer of ours.

AGWAY

OF COURSE YOU DO!

And that's a primary reason why, as part of Agway's Complete Crop Service for members, a bulk-blend fertilizer plant has been located in this area. Certainly, it is one of the most modern and efficient you will find anywhere.

BETTER QUALITY

Agway Bulk-Blend Fertilizers are compounded solely from premium-grade ingredients that must pass stringent particle-size tests. This gives you the additional money-saving advantages that come from less segregation of fertilizer particles and greater uniformity in application. As a result, Agway Bulk Blends can mean greater yields, more uniform yields, more profitable yields per acre than ordinary fertilizer mixtures

Then, too, Agway blends to the highest practical concentrations. You specify the plant-food units needed and Agway blends to your order — up to 55 fertilizing units per ton. You cover more acres, with less tonnage.

Your local Agway Bulk-Blend Fertilizer plant is ready to meet your specific needs now. What's more, you can have your prescription-blended fertilizer delivered and spread for you with specially designed Agway equipment Or fertilizer formulated for your needs is available in a convenient Agway trailer-spreader for you to use Or you may, of course, utilize your own equipment for hauling and spreading.

IF YOU WANT . . .

to save money on the crops you raise, why not call today? You will receive complete information, and the answers to any questions you may have, with absolutely no obligaton. You have nothing to lose. It could be one of the most profitable calls you ever made!

L. F. Photo

SNOWMOBILES GALORE AT FARM SHOW

Harrisburg — This was the year of the snowmobile at the Pennsylvania Farm Show.

Take a gander in any direction at the 53rd Farm Show exhibit area where manufacturers and distributors display their products and you'll see the ubiquitous snowmobile

It's an expensive "toy" Prices range from $800 to $2,000 Some come equipped with little trailers the family can ride in while Dad does the driving

One distributor labeled the snowmobile the "farmer's toy" because the machine is used in winter when a farmer can enjoy it from afternoon milking until slumber time

"The snowmobile doesn't interfere with plowing, planting, cultivating or harvesting," the distributor said

Practical uses for the snowmobile, as far as farm life goes, include rounding up the cattle, inspecting fences and looking over acreage farmers seldom inspect during winter months.

Snowmobile fun isn't restricted to farmers City folks can have a peck of fun by whooping it up on the machines at parks and golf courses.

Amos H. Funk

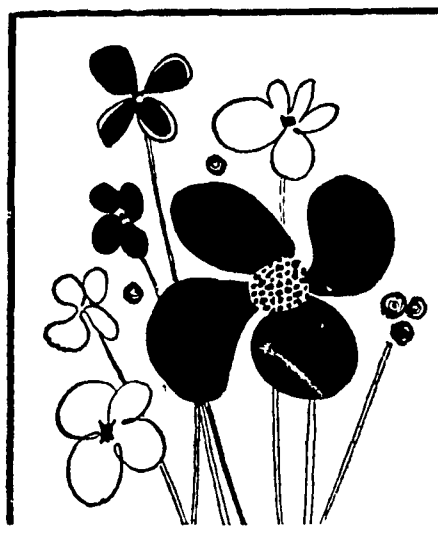
Funk Reelected Conservation Dist. Chairman

Amos H Funk, Millersville R1, was reelected recently to his 17th term as chairman of the Lancaster County Soil and Water Conservation District

Also reelected were vice chairman Henry H. Hackman, Manheim R2 and secretary-treasurer Richard Hackenberger, Penn Manor Vo-Ag Teacher.

Protect Trees

If we get snow cover for any length of time this winter, I hope that owners of small fruit trees and ornamental shrubs will have the plants protected from rabbits and field mice; these rodents like to gnaw on the bark of the tree and can do considerable damage There are several ways the trees can be protected against rodent injury. One way is to use aluminum foil or fine wire mesh and wrap around the trunk of the tree from the ground up at least 24 inches, also tree wrapping paper may be used to the same height This distance is needed in case of deep snow for any length of time.



FOR THE
FARM WIFE
AND
FAMILY

Needlework And Gardening Are Hobbies Of Miss Workman

by Mrs. Charles McSparran
Lancaster Farming Staff Writer

This week brought together under one roof the finest of Pennsylvania's agricultural products at the Pennsylvania State Farm Show in Harrisburg Harrisburg was also the meeting place January 13 and 14 for the annual convention of the Pennsylvania Society of Farm Women

Among the presidents and delegates of Lancaster county's Farm Women societies who attended was Miss Elizabeth Workman of East Petersburg, president of Society #5 This society has a present membership of 40 women of the Manheim area The other delegates from this group attending the convention were Mrs Clyde Hottenstein and Mrs Guy Musselman Miss Workman is a past president of the Lancaster County Society of Farm Women, having served from 1940 to 1942

Society #5 fills envelopes with Christmas seals for the Tuberculosis and Health Society of Lancaster County and seals for Heart Haven in February They also provide a treat once a year for the guests at the Lancaster County Home This past Thanksgiving season they packed 35 baskets of fruit for shut-ins in the neighborhood They will be sewing for the Lancaster General Hospital January 23

They held their Christmas party at Willow Valley restaurant December 28, 1968 and entertained their husbands At this time they presented their president, Miss Workman, with a lovely ceramic bowl which was made by Mrs Raymond Hess, Landisville, who teaches ceramics The fine craftmanship exemplified in this iridescent, blue grape embossed, gold trimmed bowl attests to the esteem they hold for Miss Workman and her fine leadership She is justly proud of this truly magnificent bowl.

MISS ELIZABETH WORKMAN admiring a ceramic bowl made by Mrs. Raymond Hess, Landisville, and given to her as a Christmas present from Farm Women Society #5 of which she is President. L. F. Photo

Miss Elizabeth was born and raised on a farm, just outside the borough of East Petersburg, which was owned by her father and her grandfather and now owned by her brother Frank and where he still lives She and her sister Matilda own the house in East Petersburg which was built by their grandfather in 1880 and they have lived there in the first floor apartment for four years Prior to that they lived in Lititz

Although Miss Workman was never married and privileged to have a family of her own she has mothered countless children during school hours because she taught school for 42 years, retiring in 1964. Yes, to meet her is to feel like one of her own. In these days of hurry and scurry and push and shove it is indeed a rare treat to meet and associate with someone with such a gracious manner as this lady possesses

She first taught eight grades in a one-room school-house in Rapho township, then taught third grade in Manheim borough and lastly taught first grade in Lititz She still does substitute teaching in Warwick Union. She was educated in East Petersburg School in East Hempfield township and Millersville Normal School (now Millersville State College). She took summer courses at Pennsylvania State College (now Pennsylvania State University) and the University of Pennsylvania She is a member of Lancaster County Retired Teachers Association which meets four times a year

She comes from a family of teachers Her father, four brothers, her sister and she all attended Millersville Normal School Her brother Charles was principal of Maytown and Fulton township high schools before becoming a lawyer Her brother Walter taught in Penn township then became a cattle dealer, her brother John taught in Elizabeth township and Frank

FARM WOMEN NEWS

SOCIETY 4

A holiday luncheon was held by Society of Farm Women No 4 recently at the home of Mrs. John Gingrich, 1763 Ridge Ave, East Petersburg.

The business meeting followed the covered dish luncheon Mrs. Willis Reapsome led the devotions.

The group discussed the forthcoming 50th annual State Farm Women's Convention which was held in Harrisburg, Jan. 13 and 14. Delegates Mrs. Daniel Will and Mrs. Edwin Yeaglin attended along with the new president, Mrs. Paul A. Kauffman

Officers elected recently will assume their duties at the next meeting. They are: Mrs. Paul A. Kauffman, Columbia R1, president; Mrs. Robert Garber, Columbia R2, vice president; Mrs. Wilbur Kauffman, Silver Spring, secretary; Mrs. Alvin Musser, Columbia R2, treasurer; and Mrs. Frank Nolt, Landisville, corresponding secretary.

Mrs. Wilson Mohler, Centerville, will serve as song leader, Mrs. Paul Metzger, Ironville, as pianist, and Mrs. Cyrus Gamble, Jr., reporter.

Members named to serve on the program committee are Mrs. Henry Reist, chairman, Mrs. Victor Koser, Mrs. Harrison Nolt, Mrs. Ira Frantz, and Mrs. William Campbell.

Special activities committee named are: Mrs Carl Siegrist, chairman, Mrs Norman Siegrist, Mrs Daniel Forry, Mrs. Frank Jones, and Mrs A W. Wickenheiser.

Members named to the sunshine committee are: Mrs. Robert Brubaker, chairman, Mrs Richard Wile, and Mrs. John Neff.

Membership committee members named are: Mrs. E Robert Nolt, chairman, Mrs. A. R. Brooks, and Mrs. Daniel Forry.

"Behind the Iron Curtain" will be the topic of Dr. C D. Leiphart at the next meeting of the group to be held Saturday afternoon, January 25 at 1:30, in the Mountville Church of the Brethren, when the delegates will give a report of the state convention.

SOCIETY 6

Farm Women 6 met recently at the home of Mrs. Susan Brill, 32 W. High St, Elizabethtown. The president, Mrs. Martha Eshelman, presided.

Devotions were in charge of Miss Margaret Haines. Sara Meyer and Martha Eshelman reported fruit baskets were given to shut-ins during the season.

It was decided to support a Korean child during 1969. The group voted to make cancer dressings.

Guest speaker was Mrs. Mary Forney who spoke on happiness and also led the group in singing.

The February meeting will be held in the social room of the Elizabethtown Church of the Brethren.

Assisting Mrs Brill were Mrs. Minnie Kulp, Mrs. Sadie Reighard and Mrs Margaret Bowers.

SOCIETY 7

Society of Farm Women 7 met in the Planetarium of the Pequea Valley Intermediate School, Kinzers, last Saturday afternoon Mrs. Harold Eby presided.

Devotions were in charge of Mrs. Charles Hoober. Delegates who attended the state convention in Harrisburg were Mrs. Paul Skiles and Mrs. Chester Clark. Mrs Eby, president, also attended.

Two members will be in charge of the door prizes for the Spring Rally of Farm Women of Pennsylvania to be held at Dutch Town and Country Inn on May 15. They are Mrs. Aaron Denlinger and Mrs. Eby.

Speaker for the afternoon was William Chronister, science teacher at Pequea Valley. He gave an illustrated lecture on Astronomy.

The next meeting will be held at the home of Mrs. Jacob Kreider, Kinzers R1, on Feb 8 at 2 p.m. Members will display their hobbies at this meeting.

SOCIETY 14

Farm Women Society #14, Strasburg, met recently in the home of Mrs. Walter Himmelreich, Ronks R1. Devotions were in charge of Mrs. Clarence Groff and the President, Mrs. Christian Landis, presided at the meeting.

Mrs. Doris Thomas, Extension Home Economist, spoke to the group on "Extension Outreach in the Lancaster Area"

Hostesses were Mrs. Walter Himmelreich, Mrs Clarence Groff, Mrs. Jacob Herr, Mrs Jean Thomas.

The State Convention was held January 13 and 14 Delegates who attended were Mrs John Hershey, Mrs. Harold Groff and the President Mrs Christian Landis. Alternate

Ladies, Have You Heard? . . .

By Doris Thomas, Extension Home Economist

Melamine Dishwear Solves Breakage Problem

If you're like a lot of homemakers, you probably have a dish breakage problem. Then you'll be interested in melamine (pronounced — mel-a-mean) dishes, one form of thermosetting plastics. They're lightweight and highly resistant to breaking, cracking, or chipping.

THOMAS

Melamine dishes give you many patterns and colors to choose from. They have a surface finish that protects them against stains But the finish can be ruined by harsh abrasives or strong bleaching agents

Carefully read the label on any melamine dishes you buy. Commercial standards have been set and dinnerware meeting these requirements is given an identification hallmark. Such a mark indicates a manufacturer's guarantee against fading, breakage, and safety from detergent and dishwasher action.

With proper care, most people find melamine dinnerware will maintain its original appearance for a long time. But manufacturers suggest warm water washing Remember not to use harsh pads or gritty cleaners that may scratch the surface. And knives with serrated edges may also mar the surface. While melamine dishes won't burn or melt in a hot oven, they may scorch, so keep them away from extreme heat If you have a problem with breaking dishes at your house, melamine dishes may be a solution

Practical Storage Hints

Modern homes do favor the uncluttered look When storage is efficiently planned, it contributes to orderliness and ease of living by helping one establish systematic working habits Adequate storage provides for items at the place where they are used.

Wasted space can be found in closets, cabinets, drawers, and shelves Storage devices such as step shelves, vertical files, or drawer dividers can help you make better use of the available space.

The first step in improving storage is to eliminate the never used items in your home. Then, make a list of items to be stored Your next task will be to provide storage for them in the areas where they are used such as sleeping, bath, kitchen, utility and living areas Then you

(Continued on Page 17)

Some little known
BUT VERY PRACTICAL MATERIALS
that protect your home from Old Man Winter

- **HEATING TAPES** — Manual or thermostat controlled. Just wrap around spouts and down spouts to prevent ice from jamming under shingles.
- **PIPE WRAP** — Two kinds! One prevents pipes from freezing. Another stops dripping pipes.
- **WEATHER STRIPPING** — Get expert advice on the best kind for you.
- Seal your garage door! Use **GARASEAL** for bottoms, sides and top.
- New **KOROSEAL** storm doors and windows — won't conduct heat.
- **SNOW FENCE** solves chronic snow blowing problems.
- **FIBERGLASS HOUSE INSULATION** — All the well-known kinds plus the new type for pouring into existing walls.
- And **NATURALLY . . .** several kinds of ice salts and sand, snow shovels and ice scrapers for steps and sidewalks.

Where it pays to shop regularly for home maintenance materials for better living.

• For The Farm Wife

(Continued from Page 14)

is a retired farmer. Her sister Matilda always helped at home.

She is a member of the First Reformed Church of the United Church of Christ, 40 E. Orange Street, Lancaster and active in the Ladies Guild.

Miss Workman is a member of the James Buchanan Chapter of Eastern Star of Lancaster. She is also a member of and a past president of the Lancaster General Hospital Auxiliary.

Her hobbies are needlework and gardening She has made needlepoint chair seat covers for 8 or 10 chairs in their home, crocheted tablecloths, edgings etc and done beautiful embroidery and hemstitching. She has a sizeable vegetable garden where she grows many more vegetables than they can eat and they can and freeze all they can use besides giving many to their friends. She also grows flowers and even enjoys the colors in the fall of the weeds that escape her hoe in the summer

She and her sister have many beautiful pieces of antique furniture and china. Elizabeth says "I like the china the best." They also have old linen articles made from flax grown on the old homestead. The needle-work on these pieces is very intricate and made from original designs.

Besides these activities she enjoys helping her sister with the housework and cooking and they enjoy entertaining their relatives and friends If you can get away from their house without sampling some of their food you're different from most people because if you can't eat there you're given a sample to take with you. One of their recipes which is a little different but very delicious and easily and quickly made is

CHOPPED BEEF POTPOURRIE (Soup)

- ¾ lb. ground beef (hamburg)
- 3 medium onions sliced
- ⅓ cup barley
- 1 pint can of tomatoes
- 1 tablespoon salt
- ½ teaspoon pepper (can be omitted)
- 3 carrots sliced
- 3 potatoes diced
- 3 stems celery
- 1 quart of water

Brown ground beef and onion in a large sauce pan. Add other ingredients. Simmer, covered 1 hour or longer.

A dessert everyone raves about is their

DREAM WHIP CAKE

- 6 egg whites
- ¾ teaspoon cream of tartar
- 2 cups sugar
- 2 teaspoons vanilla
- 2 cups saltines broken (over flowing)
- ¾ cup nuts
- 2 packs of Dream Whip (1 box)
- 1 can fruit (Luck Leaf of any kind)

Beat egg whites until frothy. Add cream of tartar and beat stiff. Fold in other ingredients Butter 9 x 13 pan and pour in the batter Bake 25 to 30 minutes at 350 degrees When cold spread Dream Whip on top Refrigerate 1 hour Then put fruit on top. Let stand in refrigerator over night.

Burrowing Ants

A common species of ant, the eastern or Allegheny mound builder, builds clusters of large mounds with burrows extending some 5½ feet below the surface.

EGGS, EGGS, and more EGGS!

with Ful-O-Pep Egg Ration 2340

Providing complete nutrition to hens from 23 weeks of age to 40 weeks of age is Ful-O-Pep Egg Ration 2340's prime responsibility.

Adjusted by season—in energy and protein content, it reduces losses from production slumps and smooths valleys and peaks in production curves by perfectly suiting the feed to fit the local climate. This is supported by the high rates of lay during the winter months that have been obtained from its use.

Efficient feeders know that Ful-O-Pep Egg Ration 2340 is a result getting feed that performs exceptionally well, and on an economical basis. We have the whole story—check on our complete Phase Feeding Program. Stop in and see us today!

How To Buy Jellies And Preserves

There's no doubt that people in this country are partial to jams and jellies In just one year, about one billion jars of jellies, jams or preserves, and marmalades are produced in the United States. That's about five jars for every person

When a speciality product is this popular, there's likely to be lots of competition among processors You'll find jellies, jams, preserves, and marmalades in all sorts of fruit flavors and all prices on the shelves in the supermarket.

The differences in the various types are largely a choice of fruit ingredients and accepted usage. The way in which the fruit is prepared and the texture or the gel strength of the finished product account for these different kinds of fruit spreads

Jelly is made from filtered fruit juice It has a firm gel that holds its shape when you take it out of the jar. And it's sparkling clear.

Jams or preserves are made from crushed or pureed fruit, but the gel texture isn't as firm as in jellies And it isn't as clear. Many jams or preserves are made up of whole or large pieces of fruit held together in a thick but not stiff, gel

Marmalade is a tender jelly with small pieces of fruit, generally sliced citrus peel, evenly dispersed throughout the gel

Next time you're shopping for jellies, preserves, or marmalades, take note of the differences among the choices you have from all the different kinds displayed in stores

Seed Supply

Even though the most severe part of our 1968-69 winter may be yet to come, the time is at hand when all kinds of crop and garden producers should be ordering their supply of seeds for this spring Alfalfa and cover growers will be seeding in their winter grain in less than 8 weeks from now. Certified seeds are recommended in all cases in order to reduce the risk in the crop Top quality seed is more free of weeds and disease and should produc larger amounts of the desired crop. Legume seed from a neighbor must be tested in order to be a legal sale, and even though the price may seem low at planting time, it may be very expensive if unwanted weeds and diseases show up and if the yields are poor With the high price of other inputs into a crop, it is good management to start with the best quality seed.

40 YEARS OF FARMING AND HERE'S ONE I NEVER THOUGHT OF...

"Lime your land while the ground is frozen!"

Winter is the best time to apply limestone. A fellow from Burkholder's Limestone in Ephrata put it this way:

"When your land is frozen hard, more consistent spreading is possible. And when the land begins to thaw, the depth and rate of penetration is such that the lime is better assimilated or mixed with the soil.

With spring plowing, the lime will have had a more complete effect on correcting soils acid condition."

He made real good sense to me. I know enough about farming to lime my land for greater yields. The people at Burkholder know their farming too. We get along fine together. They won't boast about their products unless you ask 'em.

I'll bet we'd all learn more if we did ask!

Burkholder AGRICULTURAL LIMESTONE EPHRATA PA

Farm Women

(Continued fro.n Page 15)

delegates were Mrs Leon Thomas and Mrs. Maurice Herr.

The next meeting will be held February 12 from 10 A.M. to 3 P.M. at the home of Mrs. Arthur Groff, 1254 Lime Valley Road Convention reports will be given and local by-laws will be read. The Society will sew pads and each is asked to bring sheets and a sandwich.

On January 30 the Society will sew at the General Hospital from 9 A M to 2:30 P.M.

SOCIETY 16

Society of Farm Women 16 met recently at the home of Mrs Benjamin McGuigan, Nine Points. Mrs Mary Myers, senior home economist of PP&L, gave a talk on "Using Your Freezer to Advantage." She showed slides to illustrate.

The next meeting will be Feb. 12 at the home of Mrs. Roland Mendenhall, Nine Points. At this all-day session, the Society will make cancer pads.

SOCIETY 17

Society of Farm Women 17 met recently at the home of Mrs. Veryl Grave, with Mrs. Richard LeFever and Mrs. Paul Rineer, all of Buck, as co-hostesses.

Twenty-one members were present with Mrs. Sam Wenger presiding

Five dozen cancer dressings were made during the meeting. Discussions on the County project, the Solanco fair and art work were held.

Delegates to the State convention were: Mrs. Leonard Sprout, Mrs. Everett Kreider and Mrs. Ernest Shaub, president.

Secret sisters were revealed for the past year and new ones were chosen.

The February meeting will be held at the home of Mrs. Robert Detwiler, Refton at 7:30 p m. when more cancer dressings will be made.

SOCIETY 20

Society of Farm Women 20 met at the home of Mrs. Pauline Reinhart, Kirkwood RD. The hostess led devotions. Mrs. Hayes Hastings presided.

A covered dish luncheon was featured as the group sewed cancer dressings at the all-day program.

Plans were made for a sewing party-covered dish luncheon to be held Jan. 22 at the home of Mrs. Jean Ressel, Quarryville R1.

The February meeting of the society will be held in the Ressel home with Vera Herr as cohostess. At the evening meeting, each member is expected to bring an original poem.

SOCIETY 21

A new project has been announced by Society of Farm Women 21. Instead of having "secret sisters" for the year, the group will entertain guests at the Quarryville Presbyterian Home as a monthly project

Mrs. Clair DeLong and Mrs. Morgan Foose are in charge of arrangements. Entertainment will include dinners, reading to the guests, going for drives and small gifts throughout the year.

At this month's meeting held in the home of Mrs. Richards Wood, Quarryville R1, Mrs. Howard Steinberg was presented with a silver charm for her work as president of the group.

The Feb. 13 meeting will be held at the home of Mrs. Roland Heidelbaugh, Quarryville R1. Mrs. Clair DeLong and Mrs. John DeLong will be hostesses

SOCIETY 25

Society of Farm Women 25 met last Saturday at the home of Mrs. R. K. Burkholder, Willow Street R1, with the president, Mrs. Glenn Nauman, presiding.

The gift of the month was won by Mrs. Dorothy Elmer. Mrs. Chester Eshelman and Mrs. Clyde Rohrer were the society's delegates to the state convention.

Members helped address envelopes at the Farm and Home Center this past week.

Members voted to give a donation to the 4-H Club for summer meetings.

Mrs. Burkholder showed movies and slides of her trip to the Caribbean and South America.

The next meeting will be Feb. 8 at the home of Mrs. Melvin Groff, Lancaster R6, when members will welcome a foreign student and Mrs. Harry Scheid, who will give a demonstration on weed craft.

Bad language is no substitute for an imaginative vocabulary.

Real Character

Brunhilde, heroine of Wagner's operas, was a real character. She was the daughter of a king of the Visigoths and lived in the sixth century. Her life was full of intrigue.

Old Custom

The custom of wearing wigs is very old. Egyptian mummies have been found with them and we also know that the ancient Greeks and Romans wore them.

GRANGE NEWS

Lancaster County Pomona Grange #71 will hold a dinner meeting at the Rhoads Spanish Restaurant, Quarryville tonight

Pomona Master C. G McSparran will be in charge of the business session Serving on the resolution committee will be Loran Brinton, Samuel Groff and Ralph Wanner

The Lecturer Mrs Charles McSparran will conduct a memorial service for members who died during the year The speaker will be A Wayne Readinger, Master of the Pa. State Grange His topic will be "The Need Of The Grange In The Second Century." The Pomona chorus will sing Mr and Mrs J. Stanley Stauffer Jr will be in charge of square dancing after the meeting

New Awards Programs

Two new award programs, both of the contests based upon community service, will feature 1969 Grange activity in this area and throughout the state, State Deputy Master J. Stanley Stauffer Jr., of Quarryville R1 said this week.

Announcement of the programs was made at a State Grange training conference held recently at Bedford which he attended. Others from this area at the conference were Mrs Stauffer and Mrs. Charles G. McSparran, of Quarryville.

One of the award contests, titled "Pride of Pennsylvania," will focus on beautification of Grange halls and grounds or comparable alternate projects It will be sponsored by the National Grange Mutual Insurance Company. All subordinate Granges may compete

In the other competition a "Granger of the Year" will be selected from nominees who have distinguished themselves in Grange work and in community leadership Its sponsor is the Farmers and Traders Insurance Company. Both sponsoring firms are Grange related

Winners in both categories will receive handsome prizes

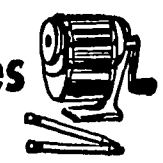
Furman Gyger, Kimberton, outlined an international People-to-People service project in which participating Granges will send hand cultivating tools or other agricultural equipment to needy rural residents in Bahia, Brazil Gyger, chairman of the State Grange executive committee, based his appeal on personal observations made on a recent visit to that country

A Wayne Readinger, state master, said a Grange centennial motion picture, "Seedtime and Harvest," that was shown at the conference banquet, will be available to all Granges

John W. Scott, Washington, national master and immediate past state master, reported on Grange activity at the national level, particularly as it relates to the Grange's second century, now in its third year.

You know you're getting old when your youngsters ask, "Daddy, what's a choo-choo?"

Correspondence Courses



KEEP SHEEP ON SPARETIME FARMS

Sheep fit well into sparetime farming Their food and shelter needs are readily met Little equipment is needed

According to a Pennsylvania State University correspondence course on sheep husbandry, about ninety percent of sheep's food are forages — pasture in summer, hay and silage in winter — all homegrown.

Buildings of rough construction give sheep adequate shelter The feed storages need to be more weathertight than for the animals Provide dry floors and have the barns face east or south with ready access to pasture and exercise lots

Equipment needs are feed racks for ewes, creep feeders for lambs, and watering troughs for both. Your biggest initial expense may be for fences.

Study the Penn State correspondence course to learn more about sheep Send your name and address with $2 25 to Sheep, Box 5000, University Park, Pennsylvania 16802.
